**Miller-Paul.**

A beautiful wedding amidst picturesques surroundings took place on Monday, Sept. 2nd, at the home of Mr and Mrs Jacob Miller, when their daughter Martha was given in marriage by her father to Mr Daniel Paul, son of Mr and Mrs Daniel Paul. William Paul, a brother of the bride groom, was best man, and Margaret Miller, sister to the bride, acted as bridesmaid. The marriage ceremony, officiated by the Rev E G Wildergrube, was solemnised in the flower garden of the bride's parents at Wambly. After the ceremony a delicious dinner was served to all friends and relatives present. All present wished the young couple health and happiness for their future life. They will make their home on the bridegroom's farm in the Aspen Ridge district—Graude Prairie Tribune.

### Keeping the Farmer Busy.

Farmers of the district will certainly remember the 1935 crop year. What with the late spring, short growing season, wet having time, early frost, and shower weather during the harvest period, they had had their troubles. It was thought that, at the turn of the month, the weather would go on its good behaviour, but the extended heavy downpour of rain on the 5th belied the promise. Friday's sunshine brought the not-discouraged farmers out in the fields with their binders, altho in some cases the standing grain had not become thoroly dried following the last shower. Some enterprising farmers were said to be busy cutting grain on Sunday, in an effort to save as much of it as possible before another downpour. It is admitted now that the early frost nipped most of the growing barley crop in the district, eliminating it as being useless for any practical purpose.

### Premier Not to Participate.

It is stated that Premier Aberhart will not participate as a speaker in the organisation of a Saskatchewan social credit party which will attempt to enter a candidate in each of the 21 Federal constituencies in that province, altho he is said to be heartily in accord with plans announced for the neighboring province.

### A Nice Little Plum.

The Provincial treasury was enriched on Friday last to the extent of \$453,450, when a check for this amount was received by the Government from the Alberta Wheat Pool. This payment was on principal and interest due on Wheat Pool bonds which were guaranteed by the Province of Alberta, following overpayments by the Pool in 1929.

### Tomorrow Night's Dance.

The Secretary of the S.P. Tennis Club hopes you are keeping tomorrow (Friday) evening, Sept. 13th open, as this is the date for the club's annual Sports dance, which will be held in Kelly's hall. Lunch will be served, and members are requested to bring their friends.

JAPAN TEA

## Democracy And Liberty

Liberty, says Mr. Stanley Baldwin, is rooted in the English character and fostered and maintained by institutions which also have grown out of that character. That liberty is embodied in the parliamentary system which is the result of the obstinate determination of the English people to manage, individually and nationally, their own affairs. Mr. Baldwin says that system has grown out of the common sense and good nature of the people, who prefer elections to street fighting, and talking shop to revolutionary tribunals. The English, above all other peoples, have made a success of democracy and that success has been planted in the Overseas Dominions. The reason for this is adduced by The Times as being a refusal to "allow our citizens to speak"; that freedom is the breath of democracy which protects the people from domination by one side or the other through the expression of opinion in the ballot box. It is, as The Times says, "the translation into action of our instinctive determination to resist any form of tyranny that has from time to time preserved us."

Mr. Baldwin reiterates that the price of liberty is eternal vigilance, and the more so in a democracy which is the most difficult form of government, and, therefore, the most worthy of giving our lives to make it a success. Thus Great Britain has the monition that it is not enough to sit with folded arms and believe that she has the greatest Government in the world. Tyranny takes many forms. It is constantly raising its head. One way of propaganda which it has devised is to constantly bemoan that democracy has failed. According to Mr. Baldwin, it is the form of government which has won more triumphs than any other, and, therefore, should be cherished and cultivated as in times past. Self-government, which is democracy, has maintained in developing forms in England for eight centuries. No one is going to be able to tear it from its roots, which are laid in the English character.

When we review the history of North America continent, we see that the struggle for liberty and self-government is written large over its pages. The Pilgrim Fathers left the old world in order that they might enjoy that religious liberty denied to them at home. The original American colonies revolted because self-government was withheld from them, and taxation imposed on them without their consent. The American Civil War was a life and death struggle for liberty. One long fight followed another in pre-Confederation days to win liberty and the rights of responsible government in Canada.

In the earlier days of the world's history, liberty could only be gradually won through bloodshed and death on the battlefield. Today it can only be retained and expanded through democratic forms of government, and by stern resistance to all movements, however subtle and apparently innocent, which tend to restrict the liberties of the people, and of individuals who in the aggregate are the people and the State.

Why have the peoples of Great Britain, United States and Canada laid such stress on individual liberty, and been willing to sacrifice all else in order to achieve it? The answer is, of course, that liberty is the greatest thing in the world without it life is not worth living. A slave may enjoy health and security, but he is not free. God's gift of liberty as he is denied that which is apparently greater, confinement and happiness.

It is not to be forgotten, too, that it is only in those countries where full and free democratic forms of government exist that liberty remains the priceless possession of the people. Yet we find in certain countries, where the people became lax in defence of their liberties, those very democratic forms were first utilized by would-be dictators to later deprive them of their liberties. And all over North America today there are organized groups, employing the very liberty which democracy has conferred upon them, to overthrow and destroy democracy.

It is necessary, therefore, for all people who prize liberty to be on their guard and resist every attempt, however veiled it may be, which is designed to restrict the liberty of themselves or others in even the smallest degree. Liberty once lost may be extremely hard to win back again.

**Holiday For Auto Horns**  
To make the life of pedestrians "a little more pleasant," Alderman Margaret McWilliams urged the blowing of automobile horns be prohibited for one or two months as an experiment in Winnipeg. The horn was more of a danger than a help, she told the civic traffic committee.

"And your age is—?" asked the woman lawyer.

"About the same as yours," replied the woman witness.

## Are You Tired—Listless?

Is your rest broken at night? If your kidneys need attention take Gin Pilla. They will strengthen your kidneys and if you sleep better you'll feel better and look better.

244

**An Ideal Vacation**  
"Yes, sir, it was just about the ideal vacation. Nothing to do but roll around all day in comfortable chairs. No mosquitoes, no insects of any kind. Pleasant, smiling people on all sides. No big bills running up, no relatives or numbers."

"Just perfect—quiet all day long. A thorough rest for the mind and body—the kind of vacation you've always dreamed about."

"Yes, sir, it was ideal. We certainly enjoyed that vacation the boss took."

From January to June, 1935, Canada exported 6,103,449 pounds of leaf tobacco, 5,792,961 pounds of which went to the United Kingdom; 238,400 pounds to British West Africa; 52,889 pounds to British West Indies; 11,680 pounds to Belgium, and 7,513 pounds to other foreign countries.

Husband (to wife who has just broken her glasses)—"You break everything that belongs to you!"

Wife—"I'm afraid you're right. Even you are a little cracked."

Old lady (to taxi-driver, who is still holding out his hand after receiving legal fare): "It's to use showing it to me, my man, I don't know a thing about palmistry."

## Bendix Trophy Race

**Chicago Air Mail Pilot Is Victorious In Contest**

Benjamin O. Howard, Chicago air mail pilot, drove his white cabin plane "Mister Mulligan" through murky skies at Cleveland to victory in the Bendix trophy race, from Burbank Union air terminal, Los Angeles, to Cleveland.

While Howard was nosing out Col. Roscoe Turner in flying time less than a minute better than his rival's, Cecil Allen, young Californian pilot, was taken from his crumpled plane at the scene of the race start.

Howard flew the 2,046 miles in eight hours, 33 minutes and 16.3 seconds. He was the first of the field arriving at the national air races.

## FASHION FANCIES

## A CAPE FOR DAYTIME AND ONE FOR EVENING IS INCLUDED IN TODAY'S PATTERN

By Ellen Worth

Capes and more capes—Paris is sponsoring this season for every taste of the day.

The tailored model may be developed in quite a number of materials, such as tweedy wools or tweedy cottons, gabardine, crepe silks, sheer crepe linens, and various shiny shantung, spongy cotton-weave, etc., for day wear.

There is just a hint of the Puritanical streak in the model that frames the face so daintily for more "dressey" wear. It's particularly nice in taftas originally planned.

"They're so easily made—and at a big saving."

Style No. 655 is designed for sizes small, medium and large. The medium size requires 2 yards of 38-inch fabric for the main panel, 1½ yards for the collar; 2½ yards of 36-inch material for cape with standing collar.

Pattern 15c each. Address mail orders to Pattern Department, Winona, Minn., U.S.A. 175 McDermott Ave. Ed. Winnipeg.

Autumn Fashion Book contains many more smart, cool vacation clothes. Send for your copy today, the price is 15 cents.

## Butter Awards

Manitoba Captures Honors At Canadian National Exhibition

Manitoba creameries captured prime honors in the Canadian National Exhibition creamery butter contest; final results of which are announced.

First prizes secured by the provinces were: Manitoba 42, Alberta 17, Ontario four, British Columbia two, Saskatchewan one.

The Winkler Creamery, Winkler Man., was awarded the silver cup for the highest scoring exhibits at the exhibition. Silver medal winners for highest scoring sample of butter in each section included Central Alberta Dairy Pool, Aix, Alta.

Icebergs have been known to be from 200 to 300 feet above the sea level and to have an entire height of from 700 to 1,000 feet—the larger portion being below sea level.

## Brighter Days Better Smokes

These brighter days are certainly worth celebrating—and wise "roll-your-own" smokers are doing it by getting back to Ogden's Fine Cut.

What a thrill it is to enjoy again the completely satisfying cigarettes that only Ogden's give—particularly when it costs so little to smoke the best! Of course, you'll be wise to use "Chantecleer" or "Vogue" papers.

55 Poker Heads, every number now accepted, as a complete set.

## OGDEN'S FINE CUT

Your Pipe Knows Ogden's Cut Plug

### Japs Need More Room

#### Want Privilege Of Emigrating To British Territory

The Tokio newspaper Asahi predicted that Japan was about to make a strong bid for loosening of restrictions on the immigration of Japanese into British territory, notably Australia, New Zealand and Canada, and on importation of Japanese goods.

In forthcoming conversations with Sir Frederick Leith-Ross, who is to stop at Tokio on his way to China as a special economic envoy of the British government this month, the Japanese will make this request, the paper said.

**Speaking Of Ancestors**  
An American was boasting to his Jewish friends of his distinguished ancestry.

"D'you know," he said proudly, "one of my ancestors signed the Declaration of Independence?"

"That's nothing," replied one of the Jews, unperturbed, "one of mine signed the Ten Commandments."

#### Small Number Naturalized

Great Britain admitted only 1,000 citizens of other countries to citizenship in the last year. Russians headed the list, 223 being granted certificates, followed by Germany, 138; Poland, 73; Italy, 72.

### A New Electric Lamp

#### Used Successfully In California To Attract And Kill Insects

A new electric lamp that attracts insect pests of field and orchard and then electrocutes them is in successful use in orchards, packing plants, slaughter houses and mushroom nurseries as the result of long experimentation by Prof. W. B. Holmes of the University of California. The color of the light may be changed to any color that is most attractive to the insect pest. Around the light is a wire cage. Insects flying toward the light's glass coil are instantly electrocuted when they strike the wire cage. The head of the lamp contains transformers which supply electric power to the wire cage and to the lighted coil.

#### Regained Health By Exercise

Five years ago doctors told William Campbell of Vancouver he had only six months to live. He took physical culture lessons, won his battle with death and now is making a habit of saving others from the same fate. During one month he saved four persons from drowning in Vancouver waters.

Approximately 12,000 murders were committed in the United States during 1930. This is about 17 times the murder rate of England.

## Firestone TIRES LEAD in PERFORMANCE RECORDS

Past performance is the best proof of tire quality. For 16 consecutive years Firestone tires have been on the winning car in the grueling 500-mile Indianapolis Speedway Race—which is equal to 40,000 miles of ordinary driving.

...that's PROOF of Firestone STAMINA

For 8 consecutive years Firestone tires have been on the winning car in the daring Pike's Peak climb with its 181 hairpin turns where a slip means death.

...that's PROOF of Firestone SAFETY

Firestone tires were on Ab. Jenkins' car at Lake Bonneville when he travelled 3000 miles at an average speed of 127.2 miles per hour without tire trouble to establish 77 world records.

...that's PROOF of Firestone ENDURANCE

The New Firestone High Speed Advertising Goods

## Prairie Farm Rehabilitation Work Is Proceeding And Good Progress Reported

Encouraging progress is already reported by the Prairie Farm Rehabilitation Advisory Committee, of which Dr. E. S. Archibald, Director, Dominion Experimental Farms, is chairman. The work of the Committee in the Provinces of Manitoba, Saskatchewan and Alberta is designed to deal with the problems arising from drought in recent years and its twin brother, soil drifting, that have so seriously affected western agriculture and also industry and commerce generally throughout the Dominion. The Committee was established under the Prairie Farm Rehabilitation Act the Act being sponsored by Hon. Foster Ward, Minister of Agriculture, and passed in April, 1935, by the Dominion Parliament.

The plans of the Committee call for a number of phases of work to be undertaken such as the establishment of about 50 District Experiment Sub-Stations on farms of 640 acres each in the drought affected areas. On these farms or stations the methods which it is considered best to combat drought and soil drifting are being demonstrated by the owner of the farm under the direction of the Supervisor of Illustration Stations of the Dominion Experimental Farms.

The reclaiming of some sections of areas where soil drifting has been exceptionally severe is a major task in itself. This work is being directed by Dr. E. S. Hopkins, Dominion Field Husbandman. Large scale co-operative efforts by which groups of farmers will undertake strip farming, the planting of trees for shelter belts around farm homes, buildings and a paddock, are also being launched. It is hoped to have whole townships included in this co-operative scheme.

Another major phase of the Committee's work is water development. The Water Development Committee, a sub-committee of the Prairie Farm Rehabilitation Advisory Committee, was established this year at Swift Current, Sask., and has its plans well under way. A total of 4,800 applications for assistance in connection with the construction of wells, dugouts, small dams and other means of conserving water, both for domestic and general use on the farm, have been received from farmers.

The Committee intends to do all that is possible to encourage farmers to adopt the best means of holding and conserving water. A staff of engineers is now engaged in surveying farms where water is urgently needed and preparing plans for the construction of dugouts and other media.

The work of tree planting for fastened shelters, and the study of what influence trees have in connection with wind velocity, soil drifting and other factors is in charge of Norman M. Ross, Chief of the Division of Tree Planting whose headquarters are at the Dominion Forestry Station, Indian Head, Sask., a unit of the Dominion Experimental Farms. He has been engaged in forestry work on the prairies for 35 years. Millions of trees are being supplied free to farmers from the forestry stations at Indian Head and Saskatoon, as they have been for many years.

A programme of research work having to do with the moisture content of soils in different areas is being carried out at the Laboratory of the Dominion Experimental Station, Swift Current.

Another important phase of the work is that of grass development. Dr. L. E. Kirke, Dominion Agrostologist, and his staff are making an exacting study of grasses such as Created Wheat Grass, Western Ryegrass, Bromegrass and other varieties to determine their suitability to resist soil drifting.

Dr. Archibald and his Committees are enlisting the co-operation of the provincial governments, the universities and farmers' organizations in order to get all possible information to do with soils and weather factor related to drought and soil drifting.

It has already been made evident to the Committees that much work is now being done had been un-

deraken 20 years ago, the farmers would not have been facing the serious situation they are today and industries in the east, which depend to a considerable extent upon the prosperity of farming in the west, would not have been so hard hit in the last few years.

The administration and co-ordination of the different phases of the work now in progress are being carried out by Dr. Archibald from his office in Ottawa.

The Committee has \$750,000 to spend during the fiscal year 1935-36 and the Act prescribes that \$1,000,000 shall be voted in each of the next four fiscal years. In addition \$500,000 has been allotted this year for water development under the Water Works Act.

The members of the Prairie Farm Rehabilitation Advisory Committee are: two representatives of the Dominion Department of Agriculture, one representative of the grain growing farmers from the drought and soil drifting areas in each of the three Prairie Provinces; one representative of the Saskatchewan Live Stock Farmers and one representative of the Alberta Range Farmers from the drought areas and one representative from the Mortgage Companies of Canada; the Canadian Bankers' Association; the Canadian Pacific Railway, the Canadian National Railways, and one from each of the governments of the Provinces of Manitoba, Saskatchewan and Alberta.

The Act states the Committee is to consider and advise the Dominion Minister of Agriculture as to the best methods to be adopted to secure the rehabilitation of the drought and soil drifting areas in the Prairie Provinces and to develop and promote within those areas systems of farm practice, tree culture and water supply that will afford greater economic security.

The members of the Committee receive no pay, but are allowed reasonable travelling expenses.

### May Own Oil Lands

Oilmen Think Unlocated Pool May Be On Prince's Ranch

The Prince of Wales who during a visit to Calgary, defined for westerners the difference between a "ranch" and a "ranch" may find himself the owner of rich Southern Alberta oil lands.

His royal highness' "P.P." ranch, in the foothills of the Peckford district, may hold the secret of the long sought crude oil pool in Alberta. Oilmen speculated on this possibility Friday as drilling continued on a Peckford well, a half mile from the royal ranch.

The uplocated pool, long sought by drillers, is held by oilmen to be the source of the flow which has poured millions of gallons of naphtha into the Turner Valley wells.

Drillers have struck Devonian limestone in the Peckford field, the formation from which large crude oil production is obtained in the United States.

The prince, who told westerners a "ranch" is one that pays and a "ranch" one that does not, is the owner of 4,000 acres, 25 miles from High River, Alta.

### An Unenviable Record

Jug-Slav Thief Speedy In Getting Back To Prison

Josip Zagreb, the most famous of Zagreb pickpockets, has broken the Jug-Slav record for speed in getting back to prison. Josip was released after serving two years in Ljubljana, Zagreb's famous prison. As he said goodbye to prison officials, at the gates he could not resist the temptation to remove a silver watch from one of them. He was seen by another official, caught, taken to the local lock-up, and the next day disappeared again before a court. Within a few hours he was back in Ljubljana.

The director of the museums at Hull, England, traded a matchbox containing a whale's molar to the Natural History Museum for a skeleton of a whale.

### Balance Wheel Of World

Scandinavian Countries Are Setting Nations A Good Example

According to William S. Knudson, executive vice-president of the General Motors Corporation, Scandinavia is "the balance wheel of the world."

Certainly Sweden, Norway and Denmark are setting the world an example of countries keeping their heads on their shoulders and their feet on the ground, when all about them is strife and turmoil, upheaval and uncertainty.

They are not big countries. The combined area of the three is only about 315,000 square miles and their combined population is not much more than 12,000,000. They lie in latitudes that breed mildness and make men nervous about them.

The Scandinavian peoples are patriotic and liberty-loving. They are not easily swept off their feet by those who promise them the millennium. With crowns toppling all about them and dictators springing up, they have clung conservatively to their constitutional monarchies. They have been blessed by intelligent and sympathetic sovereigns.

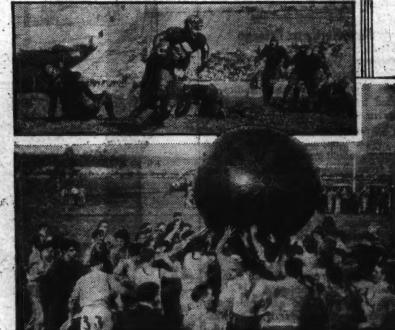

The Scandinavians are clean living and honest. They believe in paying their debts and taxes. Although they inherit a tradition of war and adventure, they have put war out of their hearts and minds.

The Swedes, Norwegians and Danes have contributed some of the best blood that flows in English veins and today constitute one of the finest strains in our own population.

Counties do not have to be big to be great.—Detroit Free Press.

Although scientists know comparatively little about glowworms, it seems to be established that their light is generated in the act of breathing.

## The SNAPSHOT GUILD School's Ahead. Snapshot When You Go.

In later years, when you are an alumnus, you will get your greatest enjoyment as you look back over the pictures you snapped at school.

With the opening of schools a new season arrives for snap-shooting and what a paradise for the boy or girl who owns a camera!

Whether you go to a little country school or a big city school, there is always your opportunity for snap-shooting is unlimited, providing you use your eyes and the proper amount of good judgment. Just as a newspaper reporter develops a "news" story just so should you should develop a "news" for snapshots!

There are two cones, the obvious one being the school building or buildings, as the case may be. And, we'll want them; but what about pictures of new classmates, teachers, old friends, books, games, food, the basketball team leaving for a game out of town and many other interesting story-telling pictures?

It doesn't make any difference what kind of cameras you have you can take pictures under certain conditions with a dollar box camera that, for certain purposes, are about as good as those cameras with an expensive folding model.

Did you ever think of taking action pictures with a box camera? You can do it. Support your arm tightly against the camera frame. You can capture an exciting play, full of action, the high and low, and you can take two hundred or more action pictures of the scenes of motion you witness in a picture. At that distance of course, your images will be small but an en-

## Way To Find Markets For Our Agricultural Products Is Through Wide Publicity

### Educating Native Girls

Widow In Anchorage, Alaska, Has Adopted Seventh Child

A widow of many years, who had dedicated her life to aiding unfortunate children of the Far North, has taken steps to adopt her seventh native child.

Mrs. Corinne Call, of Eklutna, filed a petition with United States Commissioner Thomas C. Price for the adoption of an Alaskan 10-year-old girl, living in her residence in Alaska, Mrs. Call's native of Washington, D.C., has adopted six natives, girls, most of whom are now adults. Two are married, another is taking instruction in beauty culture in Seattle.

Their adopted mother has provided them with good educations, and two are in school at Eklutna. One is dead.

Most noted of her adopted children is Miss Melba Call, who has been blind since childhood. She is a teacher of blind native boys and girls at the Eklutna school, where Mrs. Call also is a teacher.

### What Price Education

Joe worked as checker in a munitions plant. He learned one day, by interviewing the laborers whose truckloads of shells he tallied, that they got \$10 and time and a half overtime, while his wages were only \$5 a day. He then interviewed the foreman of his floor, asking to be reduced from checker to laborer.

"Can't do it," replied the foreman testily. "Why, you're the only man among 'em who can read and write."

Although scientists know comparatively little about glowworms, it seems to be established that their light is generated in the act of breathing.

With the opening of schools a new season arrives for snap-shooting and what a paradise for the boy or girl who owns a camera!

Whether you go to a little country school or a big city school, there is always your opportunity for snap-shooting is unlimited, providing you use your eyes and the proper amount of good judgment. Just as a newspaper reporter develops a "news" story just so should you should develop a "news" for snapshots!

There are two cones, the obvious one being the school building or buildings, as the case may be. And, we'll want them; but what about pictures of new classmates, teachers, old friends, books, games, food, the basketball team leaving for a game out of town and many other interesting story-telling pictures?

It doesn't make any difference what kind of cameras you have you can take pictures under certain conditions with a dollar box camera that, for certain purposes, are about as good as those cameras with an expensive folding model.

Did you ever think of taking action pictures with a box camera? You can do it. Support your arm tightly against the camera frame. At that distance of course, your images will be small but an en-

joyment of any province should be to find markets for its agricultural products through advertising and special articles in newspapers, the preparation of goods to attract attention, and favorable and efficient distribution and selling agencies." This declaration was made by Hon. Frank Carr, M.L.C., President of the Quebec Chronicle-Telegraph, at a luncheon of the Canadian National Exhibition. It was "Canadian Press Day."

"As a journalist," he said, "I have never ceased to preach the doctrine that in our agricultural production we should not fail to appreciate that we must not only study the needs, even the whims and strange fancies of those to whom we want to sell, but we must also realize that our farm products must be advertised in the world today in the same manner as manufactured goods are advertised."

"Once we have satisfied ourselves that we can produce foodstuffs that are required in the world markets our duty is to present the goods in the way our customers want them, and the thing and most important of all is to let the world know what we have done and what we have to sell."

"How many people in the world know that Canadian wheat is of superior quality and is a necessary ingredient in order to make the best bread; that maple syrup used in place of sugar on our fruits, such as strawberries, raspberries, blueberries, etc., accentuates the flavor and the taste to a delicious degree; that there is soil in Western Canada that produces a peerless apricot; that the fish caught off the Gaspé coast have a special quality of flesh and a superior taste; that Ontario possesses a vast fertile fruit area, producing excellent grapes for domestic wines; that the fine soil of Canada from east to west makes it possible to boast successfully our agricultural products as being of exceptional quality, if we only use printed ink to tell the story in the best way that we advertise our manufactured goods."

Mr. Carr stressed the advantage of living within the British Empire, with every unit excelling in some agricultural or manufactured product, but all helping one another by their individual efforts to reach world fame for Empire products and Empire manufactured goods.

"If we can educate our people in the desired direction by setting such an objective before them," he said, "we shall fill the receptive minds of our youth with a commercial competitive spirit in a cause not only interesting and worth while but helpful to them as well."

"We cannot blame our youth for losing their grip on things unless we take the time to arouse their ambition and enthusiasm to become interested in making a farm pay."

"There never was a better time to do this than the present, with five Canadian Provinces under farm pressure."

"Let us induce our boys to be as enthusiastic over a farm and the products of agricultural products as they are now over sports and we shall be assisting them to obtain employment, and achieve greater progress towards commercial recovery."

### Meat Exportation

Chef Purchaser In July Was United States

The exportation of meats from Canada in July was of the value of \$2,114,758 compared with \$2,149,958 in June and \$1,944,869 in July, 1934. The amount to the United Kingdom alone was \$1,903,786.

Bacon and hams accounted for \$1,516,553, the amount to the United Kingdom being \$1,800,669. The bacon export was slightly less than a year ago, and so was mutton and lamb at \$2,352, but fresh meat at \$60,583 continued its recent rise, the chief purchasers being the United States with \$85,937, Newfoundland with \$12,255 and the United Kingdom with \$12,244.

"How much money would a man need to marry you, Emma?"

"Come, now, Hattie, you know what a marriage license costs."

JOHN VAN GUILDER.

Packed full of uncrushed sultanas, that's the secret of their tempting flavor. Christie's Sultanas are always exceptionally crisp and fresh.

## Christie's Biscuits

"There's a Christie Biscuit for every taste"

### WORLD HAPPENINGS BRIEFLY TOLD

A television broadcasting tower is being built on top of the Eiffel Tower, and is expected to provide regular service after three months' testing.

To investigate possibilities of Swiss farmers with capital setting in Canada, a delegation from Switzerland arrived in Montreal recently aboard the liner Montcalm.

The Japanese government authorized direct flights between Shanghai and the magazine China weekly reported by John B. Powell, an American, because of an article allegedly insulting Emperor Hirohito "Himmler," a Doherner Pincher, owned and entered by Rudy Vallee, famous orchestra leader, won four first prizes at the 47th international dog show at the Canadian National exhibition, including a prize for the best dog of the breed.

Apparently tired of goat's milk and fruit, on which he has lived for years, M. K. Gandhi is trying out a new diet. He is experimenting with leafy vegetables and says he feels very fit as a result.

Main terminus for Britain's international commercial skyways, Croydon aerodrome accommodation is being increased to handle more than 20,000 passengers and 500 tons of freight and mail monthly.

Mass protest against a tuition fee increase of 25 per cent. will be introduced this year is being contemplated by University of Toronto students, it was learned. Medical students, facing a \$75 higher fee, said are to be solidly behind the movement.

Dr. L. J. Simpson, Ontario minister of education, announced all students wishing to attend normal schools this fall would be subjected to a thorough medical examination and only the physically fit would be allowed to enter. It was the first step in a movement to reduce the over-supply of teachers in the province.

### Miners' Strike Threatened

#### British Miners Are Dissatisfied With Wages And Working Conditions

A national miners' strike will be declared in Great Britain if demands for higher wages and better working conditions are not met. Ebenezer Edwards, secretary of the Miners' Federation, declared in a manifesto in London. The manifesto asked the public to help the miners to avoid a crisis.

"The hour has struck," it said. "After years of patient submission to conditions set for slaves, the miners have decided to enforce their demands for the payment of reasonable wages. Their wages are a shame for a civilized community."

No one knows when coal was first used for fuel.

### Found Fortune In Pillow

Chinese Spent Last Coin For Purchase That Brought Wealth

A poor Chinese who bought a little red satin pillow with his last coin—because he thought his wife would like it—discovered his wife had brought him a fortune. The lucky man, Chen Ting-nug, had borrowed a dollar (15. 6d.) from his brother-in-law when he met a destitute Russian who offered him the pillow. He knew his wife would be pleased with its marvellous embroidery and paid over his last dollar. But when he reached home he was afraid to tell her that he had "wasted" the borrowed dollar. So he lay down with his head on the pillow to think matters over. The pillow was so uncomfortable that Chen became irritated and began to tear off its covering. Embroidery of even greater beauty was revealed and he went on tearing off successive layers until he came to a ball of cotton wool. It contained 49 pieces of great beauty and size. Now Chen is richer by \$3,867—the sum he obtained for the pearls.

The pillow is now in the collection of the 47th international dog show at the Canadian National exhibition, including a prize for the best dog of the breed.

Discover Warm Water Channel Through Arctic Ice

The Soviet ice breaker Sadko reported by wireless it had discovered a warm water passage through Arctic ice which might be a section of an open channel through which steamers could navigate to the far east from Europe by way of the polar regions.

George Ushakov, head of the expedition exploring Arctic areas, said the passage was 650 feet wide, cutting through previously unexplored territory between Franz Josef Land and Nicholas the Second Land. He reported the water lane was flanked by fields of impassable ice.

Ushakov, who also announced the discovery of a new island, said he believed the water was a part of the Gulf Stream. The passage was reported extending due north from the position of the Sadko, given as 81° 1/2 degrees northern latitude, approximately 700 miles from the north pole.

The position of the island was given as 80.51 degrees northern latitude, 75.29 longitude, placing it east of the Franz Josef group in a practically unexplored area.

### Successful Outing

#### Soldier Settlers of Millet District Hold Annual Picnic

Millet, Alta.—A very successful picnic of the soldier settlers of Millet, Brightview and Michigan districts was held recently under the auspices of the Soldier Settlers Association with the provincial secretary in charge.

The picnic was held in the ideal surroundings of the Eagleview tourist camp, located on the south side of town.

Sports were held and later the men met and were addressed by Mr. E. T. Neff of Leduc, executive member, and Mr. J. E. Orr of Millet, provincial director. The women and children enjoyed games. Every family had their basket lunches and large quantities of coffee and tea were made in the geyser.

It was regretted that the provincial colonel, Col. W. A. Rogers of Gibbons, could not be present as he was obliged to go to Vancouver on business. The colonel had looked forward to repeating the picnic next year, and hope to swell the number from 40 settlers to 140.

### Motor Cars In Germany

#### Per Capita Distribution Is One To Every 75 Persons

Although Germany in the early days of the industry was an important producer of automobiles, and still produces and exports far more than Canada, it has fewer motor vehicles in use by a couple of hundred thousand than this country. According to Paul Sykes, Canadian trade commissioner in Hamburg, a survey showed 866,000 passenger and commercial motor vehicles in use throughout Germany in 1934. The per capita distribution was on a basis of one to every 75 persons. In Canada it is about one to nine persons, and in the United States about one to five.

Germany would therefore appear to be a long way from the saturation point, and a wonderful market for cars is awaiting manufacturers at home or abroad. Evidently it will be for German manufacturers, and they ought to do pretty well out of it, under the trade regulations set up. In Canada we know the tariff pretty high, but Mr. Sykes summarizes the German situation as follows:

"The import duty amounts, in the case of a medium-weight car, of whatever price, to from \$400 to \$600 (Canadian currency) per unit. Also, it has now become difficult, and at times impossible for importers or agents to obtain import permits or to complete payment for such purchases of foreign goods."

Canada's representative at the annual meeting of the American Veterinary Medical Association, held in Ottowa City from August 27 to 30, 1935, was Dr. A. E. Cameron, Chief Veterinary Inspector, Health of Animals Branch, Dominion Department of Agriculture. He is the representative for the Dominion on the Executive Board.

More vitamin B to maintain health is required by men than by women.

### 1000 PATT

PATTERN 5156

Don't long for heirlooms—make them yourself! Just by repeating this simple crocheted square you can make a bedspread that will be a priceless joy to you and your predecessors for years to come. The popcorn pattern of this design is worked on a meshed crocheted grid, giving it added contrast as well as speeding up the work a bit. You can make a lovely cushion of it, too, the richness of the design making it especially suited for this.

In pattern 5156 you will find detailed instructions and material requirements for crocheting the medallion and joining it to make a variety of articles.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Department, Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

There is no Alice Brooks pattern book published.

### SUNDAY SCHOOL LESSON

SEPTEMBER 15

(A Christian Worker in Training)

Golden text: Give diligence to present thyself approved unto God, a workman that needeth not to be ashamed, rightly dividing the word of truth. II Timothy 2:15.

Lesson: II. Timothy, Chapter 1.

Devotional reading: I. Timothy 6:11-16.

Explanation and Comments

Ecclesiastes, verse 6-14. At his ordination by the laying on of hands, Timothy received the word of God; this, Paul recalls to Timothy's mind and bids him stir up the gift—as one in due season does when he exercises his gift which spiritual equipment which has been given him for pastoral service—in order to increase it; if it is a question of use or loss.

Paul urges Timothy to put away fear, timidity, and rely upon the power of the Word and discipline which come from God.

So do not be ashamed to testify to our Lord, and do not be ashamed of a minister of the Lord like me; join me in giving to the gospel the whole gospel by the power of the God who has saved us and called us to a life of consecration—not because for anything we have done, but because he chose it himself. By the way, while he gave us ages ago in Christ Jesus and has now revealed in the appearance of our Saviour Christ Jesus, who has put down death and brought life and immortality to life (Moffat's translation).

Model yourself on the sound instruction we have given you in the faith and love of Christ Jesus. Keep the great securities of your faith intact, by aid of the Holy spirit that dwells within us (Moffat's translation).

### Health Probe

Appointment Of Commission Will Be Made This Fall

Action in regard to appointment of the royal commission on health approved some months ago at the Dominion-provincial health conference held in Ottawa will not be taken until the fall, Col. the Hon. D. M. Sutherland, minister of national health, said. The whole subject was one of such extreme importance that it could not be rushed, the minister added.

Much preliminary work had to be done in the way of consulting the various interests involved—doctors, nurses, dentists, druggists, labor, agricultural and financial. These, said the minister, will have to be co-related in order to get "preliminary action" before definite steps toward instituting the inquiry can be made.

### Keeps Eye On Speed

Although the royal chauffeur rarely stops on the gas when driving his monarch around, King George V nevertheless has a duplicate speedometer built in the back of all his cars so he can keep a cautious eye on their speed.

## ANTHONY EDEN MAKES NOTABLE SPEECH AT LEAGUE

Geneva.—Anthony Eden, Britain's minister for league affairs, opened the session with a strong and earnest plea for maintenance of the league in both letter and spirit. The scene was dramatic in the extreme.

Eden emphasized Britain was ready to do everything in her power to secure a peaceful settlement.

"In these postwar years," said the British delegate, "the nations have striven laboriously and sincerely, with a measure of success, to create a new international order which shall henceforth spare mankind the scourge of war. They made this attempt because they have learnt at long last the bitter lesson that war is a constant enemy of progress."

"That is why they pledged themselves in the pact of Paris to renounce war as an instrument of national policy."

It was for the same reasons members of the league previously expressed their determination, and gave form to their conviction, in articles of the covenant which they drew up, and which we have all undertaken to respect.

"The machinery of the new order is here in Geneva. If the spirit is also here we cannot fail."

"It is because his majesty's government is acutely conscious of their responsibilities as members of the league, because they are prepared to fulfil their share of such responsibilities, that I can assure my colleagues of our most whole-hearted co-operation in the difficult task that confronts us all."

"I am sure that all of us, as members of the council, must be fully alive to our responsibilities at this time. World opinion is watching us. The league has not a few successes to its credit, even in the short years it has lived, such a brief span in human history. Yet we all know, we cannot fail to know, and this is not the time to blind ourselves to the truth, that if in the judgment of world opinion the league fails in this dispute its authority for the future will be grievously shaken, its influence gravely impaired."

"The collapse of the league and the new international order for which it stands would be a world calamity."

"I need hardly repeat on this occasion that there is in this dispute between Italy and Ethiopia no question of any political or economic conflict between the United Kingdom and Italy."

"The specific interests of Britain in Ethiopia have been explicitly recognized by Italy, and his majesty's government are under no apprehensions that they will not continue to be respected as they have been in the past."

"The sole concern of his majesty's government in this dispute is as a member of the league and a signatory to the pact of Paris. In the position in which we find ourselves the nature of the task which lies before us is plain."

"It is our duty to use the machinery of the league that lies to our hand. Let us set it to work forthwith, and if we obtain loyal collaboration of the two parties to the dispute then we shall not fail to achieve the peaceful settlement we so earnestly desire."

Premier Laval spoke in support and then Baron Alcidi arose. "All possibility of peaceful collaboration between Italy and Ethiopia having been definitely ruled out," said bluntly, "I only cannot sustain her attitude of passivity and forgiveness towards a barbarian state incapable of controlling itself, incapable of controlling its subject populations, which, powerfully armed, at present threaten Italian frontiers."

The Ethiopian government has done nothing to make it worthy of belonging to the community of civilized nations. Even more, it has not absolutely conformed to the engagements it has undertaken for admission to the league."

"The Italian government holds in these circumstances that a state like Ethiopia cannot have either equality of rights or equality of duties with civilized states."

## Raises Short Term Loan

### Federal Government Secures Lowest Interest Rate On Borrowings

Ottawa.—Finance Minister Rhodes announced the government had raised a loan of \$20,000,000 in New York for five months bearing the lowest interest rate ever obtained on Dominion government participation borrowings.

The loan, running from Sept. 1 to Sept. 1, 1939, was issued in three quarters of one per cent. It was obtained from a group of Canadian and United States banks and will be used to retire Grand Trunk Railway Company of Canada seven per cent debentures due Oct. 1 which are payable in New York.

A statement by the finance minister said the amount outstanding on the issue was \$23,740,000 and that the sum required additional to the amount raised by loan would be provided from other sources.

## Big Reforestation Project

### United States To Plant 600 Million Trees And Shrubs

Washington.—The government expects to produce enough trees in the coming year to create one of the largest forests in the world.

Officials announced federal and cooperative nurseries will have an output of 600,000,000 trees and shrubs to be planted in reforestation projects at the rate of about 1,000 to the acre.

A large proportion of the 600,000,000 trees and shrubs, officials said, will be used in reforestation phases of erosion control work on farms and grazing lands.

## Urge Uniform Relief Plan

### Mayor Of North Bay Believes It Would Be Approved

North Bay, Ont.—Deploring the lack of a uniform, scientific method of handling relief in the Dominion, Mayor W. G. Bullock, of North Bay, opened the 35th annual convention of the Union of Canadian municipalities here with his presidential address. He expressed the belief, if a representation of 90 per cent. of all Canadian mayors reached a decision on a course to be recommended to the Dominion government, it would not be a difficult matter to get the plan approved by Ottawa, "without playing politics."

A total of about \$20,000,000 per year on a ratio of about four to one in favor of the Dominion was involved.

## CABINET MEMBER

W. Earl Rowe, M.P., for Dufferin-Simcoe in the last Parliament, who has been named Minister without Portfolio in the Bennett Cabinet.

## Trade Problem Discussed

### Possibilities That Situation With Japan May Be Improved

Ottawa.—Cabinet council gave further consideration to the Canadian-Japanese trade problem and the possibilities of improving the situation which arose earlier this summer when mutual trade restrictions were imposed against the movement of commodities between the two countries. No information was available at the close of the government meeting, but developments are expected soon.

A series of demands from Japan that the exchange dump duty be eliminated from the Canadian tariff picture so far as imports from that country were concerned, failing to bring the desired results, the Japanese government applied a 50 per cent. surtax against principal Canadian imports about two months ago. The Canadian government retaliated with a 33 1/3 per cent. surtax against Japanese imports.

"I do not advocate a step of 90, 80 or even 70 miles an hour on the public highways," said the nervous Englishman, who boasted his own land speed to 301,129 miles an hour.

"Tests reveal many machines are not safe to drive even 40 miles an hour, yet the owners send them wobbling along at nearly twice that speed. I hope my tests and drives result in perfection of cars to such an extent they will withstand the severest strain in an emergency."

"I may quit the sport and then again I may not," he said.

## Air Force For Sudan

### Squadron Leaves Egypt Bound For Kenya Colony

Cairo.—A British Royal Air Force squadron left Egypt bound for the Sudan and Kenya colony. The expedition was announced as a precautionary measure.

Sir Miles W. Lampson, British high commissioner here, informed Mohamed Tewfik Abdallah, Egyptian minister of war, that British air maneuvers would be held in the Sudan soon.

Ten Italian war transports passed through the Suez canal on their way to East Africa within two days. Three of the ships had a total of 7,000 men aboard, while seven were loaded with war supplies.

## ALBERTA'S 'MAN OF THE HOUR' AT HOME

These pictures were taken in Calgary after the recent Provincial election when Mr. Aberhart's Social Credit Party swept the polls to capture an overwhelming majority in the Legislature. Left to right are Mr. William Aberhart and Mrs. Aberhart, while at the top centre is a picture of the Aberhart home. Bottom, centre, is a view of the Protestant Bible Institute at Calgary, of which Mr. Aberhart is the leader. It was in this institute that the Social Credit system was born.

## Distribution Of Voters

### More Than One-Third On List Are Resident In Ontario

Ottawa.—More than one-third of the 5,948,503 voters whose names are inscribed in the basic list prepared last winter for the forthcoming election are resident in Ontario. The "banner province" has 2,172,596 electors qualified to vote on Oct. 14.

Ontario and Quebec account for considerably more than half of the Canadian electorate—3,747,120 to be exact. Quebec's list number is 3,574,120.

Saskatchewan's list totals 443,484, with British Columbia next with 362,120 electors.

Manitoba's total is 371,204.

In Alberta there are 368,866 names on the basic list.

The three maritime provinces aggregate 586,174, made up as follows: Nova Scotia, 303,738; New Brunswick, 229,162; and Prince Edward Island, 53,274.

The Yukon registration numbered 1,802.

## Safer Motor Cars

### Sir Malcolm Campbell Hopes That His Test Will Have This Result

Salt Lake City, Utah.—Sir Malcolm Campbell, the only man ever to travel on land at the rate of five miles a minute, expressed the hope that his test would result in the construction of safer motor cars.

"I do not advocate a speed of 90,

80 or even 70 miles an hour on the public highways," said the nervous Englishman, who boasted his own

land speed to 301,129 miles an hour.

"Tests reveal many machines are not safe to drive even 40 miles an hour, yet the owners send them wobbling along at nearly twice that speed. I hope my tests and drives result in perfection of cars to such an extent they will withstand the severest strain in an emergency."

"I may quit the sport and then again I may not," he said.

## Buys Ottawa Estate

### U.S. Government Completes Plan To Establish Legation Residence

Ottawa.—To complete its program for establishment of legation residence and office quarters in Ottawa the United States government has purchased the 10-acre estate of the late Warren Y. Soper in Rockcliffe village, a residential suburb of the capital, Norman Armour, United States minister to Canada, announced.

The Soper estate is one of the severest strain in an emergency."

"I am gratified with the return to confidence shown by the people,"

Aberhart said, making his announcement. At the same time, he said the suspension would continue indefinitely until deposits had built up the fund.

## ALBERTA SEEKING FOR ADVICE FROM MAJOR DOUGLAS

Edmonton.—Major C. H. Douglas, the Scottish engineer who founded Social Credit, is playing a prominent part in establishing the system in Alberta, it became apparent here. He holds a retainer as financial adviser to the province and is expected here shortly.

At the conclusion of the first real cabinet session of the Aberhart government, the premier announced he had called Douglas, asking if he had all the information he desired before leaving for Canada. If Douglas has the information, he will leave for Alberta immediately, if not, he will be supplied with facts and figures, Aberhart said. In any event, he will come to Alberta as soon as possible.

The government, it was learned definitely, does not intend proceeding with the Barlow-coal commission, established by the Reid administration. Sir Montague Bell, an English coal expert, will be brought in shortly, but he will not proceed with his inquiry into coal deposits, mining methods and markets, it was learned. Although Sir Montague was made chairman of the commission by the Reid government, the two members were not named. It was understood the Aberhart administration believed it already possessed all the information which could be collected by a commission.

Premier Aberhart also announced the run on provincial savings certificates had stopped and deposits had started again. The Reid government, a few days after the election, suspended redemption of certificates because of the number of withdrawals.

"I am gratified with the return to confidence shown by the people,"

Aberhart said, making his announcement. At the same time, he said the suspension would continue indefinitely until deposits had built up the fund.

## Italy's Campaign

### Will Get Under Way Without Declaration Of War

London.—Italy's campaign in Ethiopia will get under way without a formal declaration of war as soon as the weather allows the army to move, according to the Daily Telegraph.

Premier Mussolini will undertake his war campaign on the pretext it is a simple police measure, the newspaper said, and will present full arguments in support of his contention.

### Will Enforce Market Act

Vancouver.—The British Columbia coast vegetable marketing board intends to enforce its potato marketing regulations despite its failure in 14 cases against Chinese potato growers, G. A. Grant, crown counsel, declared as charges against the Orientals were dismissed. The charges arose out of an alleged attempt to run a blockade at Marpole bridge, August 12.

### Selecting Normal Students

Toronto.—Dr. L. J. Simpson, Ontario minister of education, announced all students wishing to attend normal schools this fall would be subjected to a thorough medical examination and only the physically fit would be allowed to enter. It was the first step in a movement to reduce the over-supply of teachers in the province.

### Drunken Drivers

Winnipeg.—Police considered an unique method of "keeping 'em on drunken drivers and 'specimens.' A resident has suggested such offenders be forced to keep on their automobiles a large red sticker advertising their offence. A 30-day period of penance was suggested.

### New McGill Principal

Montreal.—Arthur Eustace Morgan took over his new duties as principal and vice-chancellor of McGill university here. Formal installation ceremonies will not be held until October 5.

There are now approximately 2,847,000 milch cows in Canada. 2115

**STONY PLAIN SUN.**  
Published Every Thursday at The Sun Office, Stony Plain.

Thursday, Sep. 12, 1935.

**Advertising Rates:**

Display, 40 cents per column inch plate, 25¢ per column inch. Readers in Local, 15¢ line. Legal and Municipal Notices, etc., 15¢ line first insertion; 10¢ line each subsequent insertion.

**Mr. Stewart Campaigning.**

Hon. Chas. Stewart, Liberal candidate for Jasper-Edmonton Riding, left Monday with J. Boyd McBride for Cadomin, Mountain Park and Jasper, where they will hold a series of meetings. They will return to Edmonton Friday with the Hon. Mitchell Hepburn, Premier of Ontario, who is now at the Coast.

**Judicial Sale of Farm Property by Tender.**

Pursuant to the Order for Sale and the Directions of the Honourable Mr. Justice Ives, sealed tenders will be received for the purchase of the

M. & T. of Sec. 30, Twp. 30, Rge. 3, W. 5th Mer., containing 160 acres more or less, reserving thereout all mines and minerals.

The vendor is informed that this land is situated 7 miles from Duffield, and one-half mile from the nearest school. About 70 acres have been under cultivation, and there are about 20 acres of hay land. There is on the property a frame house 20' x 22', a barn 24' x 32', and a hen house 12' x 16', which buildings are in a fair state of repair. There is a well on the property, and it is fenced on three sides.

Tenders must be enclosed in sealed envelopes marked "Tender Fraser vs. Burton No. 35589" addressed to H. P. Wallace, Clerk of the Supreme Court, Edmonton, Alberta, and must be in his hands not later than 12 o'clock noon on the 23rd day of September, 1935.

**TERMS OF SALE.**

Each tender shall be accompanied by a marked check or cash for 10 per cent. of the amount of the tender, and the balance of the purchase price shall be paid (unless the time is otherwise extended) into Court within 60 days after acceptance of tender, without interest, or in the alternative the purchaser shall execute a mortgage for the sum of \$1000.00, which shall be a first charge on the land, and the remainder of the purchase money shall be paid into Court within 60 days after the acceptance of the tender, without interest. The mortgage shall be for a term of 5 years payable in 5 equal annual instalments and shall bear interest at the rate of 6 per cent. per annum, payable yearly.

The deposit of 10 per cent. shall be forfeited by the successful tenderer if he refuses to carry out the purchase after acceptance of his tender. Cheques of unsuccessful tenderers will be returned to them immediately after rejection thereof. The highest or any tender not necessarily accepted. In all other respects the terms and conditions of the sale will be the standing conditions of sale of the Supreme Court so far as same are applicable hereto.

For further particulars apply to Messrs. Lymburn, Reid & Cobbsick, 823 Taylor Building, Edmonton.

DATED at Edmonton, Alberta, this 29th day of August, 1935.

**LOST!**

1 brown and white 5-month old dog, part Collie and part Springer; 4 white feet, half-white head. Reward on return to John P. Miller, Postmaster.

**THE NEWS OF STONY PLAIN AND DISTRICT.**

Mr C E Liebert, a former resident of Inga district, arrived in Stony on Monday, from New Albany, Indiana.

W E Gillhouse, who operated a grain elevator here for two years, was a Sunday visitor in Stony.

Ronald Bonnyvil, of the North End service station, returned Sunday from Regina, where he had been visiting his parents.

Mr Walter Sampson arrived home Tuesday night, from a visit "across the pond."

Mr Art Mundt, who left here for Quesnel, B.C., in May, 1933, with Butcher Wood, returned to Stony on Monday night's flyer.

Mr E H Fishenden, night agent at the local station, is on vacation.

An effort is now being made by a dance teacher from the City to organise a Wednesday dance classes here.

On Sunday next, Sept. 15, Lutheran services in English will be held at in Stony Plain at 7:30 p.m. Rev H Kuring, pastor.

Local Social Creditors held a meeting Monday night and elected delegates to a convention to be held this (Thurs.) evening.

New and second-hand text books for public and high schools on sale at The Sun Book Shop.

**BUTTER AND EGGS WANTED** at The Royal Cafe.

**Sporting Notes.**

With the cool weather now on deck, hockey fever is beginning to make its appearance. A meeting is being called the latter part of this week for the purpose of organizing. The woods are full of Juvenile players, and there's a possibility we'll have 3 or 4 teams of these; with probably two teams of young lady players.

Stone baseballers journeyed to Brighthawk on Sunday, and overcame the B.B.'s in a good game by a score of 11 runs to 9. In the 2nd game Stony won by 17 to 2. Harry Staub caught both games.

**"Produce the Goods."**

Viking News: "Judging from the many inquiries from transients and others, the first problem for the Aberhart Gov't to tackle is basic dividends. People are more interested in this than in anything else the social credit leader promised. The list of those having called at this office asking for information on this subject include men without jobs, farmers haitied, out, young men and women just coming of age, older men and women about due for an old age pension, others waiting to take a holiday on the basic dividends they are expecting to receive. Mr Aberhart and his experts should get their heads together and produce the goods."

Inga M. D. Poundkeepers, S.E. 18-82-2-4, A. J. Matthews, Carvel P.O. M. E. 2-82-3-5, Scott Bell, Dufeld P.O. S.E. 28-81-2-4, Donald McDonald, Brighthawk P.O. H.W. 26-82-1-5, P. L. Lissner, Stony Plain P.O.

**WHEAT BOARD SETS WHEAT PRICE, 87 1-2c.**

The Canadian Wheat Board on Friday last fixed the minimum price of No. 1 Northern wheat at 87 1-2c. a bu. The price will be effective throughout the current crop year until July 1936. A statute passed at the last session of Parliament gives the Wheat Board power to buy wheat from producers at the fixed minimum price, so that the producer need not dispose of his wheat at a lower figure. Producers who sell direct to the Wheat Board will receive participation certificates entitling them to share in any surplus which may arise from the operations of the Board. The Canadian Wheat Board hopes to have its organization ready to function in the matter of accepting and paying for delivery some time next week.

**Holborn Happenings.**

Grain cutting, which had been well under way for a short time, was stopped again on Tuesday by the rainstorm.

Holborn Social Credit group are putting on a show and dance Sept 12; Adm. adults 20c, children 10c. Urshel's orchestra.

Another show and dance will be put on Sept. 27.—H. R.

**Duffield Doing.**

The many rainstorms are making it increasingly difficult for farmers of this district to gather their crops.

Miss Cathleen Taylor has entered Alberta college for a year's tuition.

Mr P Faulks arrived home on Wednesday, after being in the Royal Alexander Hospital, in Edmonton, for two weeks.

**Firestone GUM-DIPPED CORDS**

Everywhere, Firestone men "Most Miles per Dollar"—a fact made possible by superior quality and service.

**LET US BE COURTEOUS!**

One thing that impresses Canadian motorists on their visits across the border, is the courtesy shown by all those who have charge of the filling stations along the way, remarks a returned tourist. This courtesy is reported in many of the stores, hostels and public institutions. It becomes a strong inducement to travelers to repeat their visit. It is not too much to ask of Canadians everywhere that they put forth an equal effort to be obliging and helpful. No matter how attractive a country may be, it will lose its charm if the people who live in it are lacking in refinement and courtesy.

The hospitality of Canadians is recognised by all invited guests; it should be recognised equally by traveling visitors. When one sells his goods or his services to another, he sells a little part of himself at the same time. If he is pure gold in his manner, his character, his speech, the quality is transferred in some measure to his merchandise or his workmanship. We can well take as our guiding motto: "Man's crowning grace is courtesy."

## CHAPTER XVI

March "came in like a lamb" and continued lamb-like for so long that Nancy hung her fur coat at the very back of her closet, and concluded that spring had come: It was on one of these rare days when Aurora, deep in an orgy of housecleaning, ordered the girl emphatically to "clear out," that Nancy decided to test the woodland trail to the hilltop where she had gone with Matthew three months before; and reaching the summit, dropped breathless at the foot of the old pine.

She had wanted to go out to the Adam ranch that morning, but it was "library day," and Mary Taylor, who would have taken her place behind the desk, was visiting in Pueblo. There was nothing to do but stay at home, and this was the sort of weather that made one long to "go somewhere"—surely too fine a day to remain indoors. So here she was, gazing off at that marvelous picture, with Pike's Peak looking only about a mile away; "and at her feet a clump of Colorado anemones like those Matt had brought her from the ranch last week." Nancy wished that Aunt Judy, who so loved flowers, was here to see them.

Suddenly it struck the girl as unbelievable that she should be two thousand miles from home, alone on a hilltop under a pine that had (as Matthew Adam pointed out), viewed things that were part of the history of her country: If only this wonderful old tree could talk! Why, it had stood here in silence and witnessed that Indian boy's bold approach the lone cabin where a sun-dappled Colorado Columbine was rapturously enjoying her first Christmas tree! Did it tug at its sturdy roots in an effort to send forth a warning? mused Nancy whimsically; and then said aloud:

"But I've never had these thoughts if Matt hadn't put them into my head, perhaps. He's a queer boy—Matt Adam—so awfully shy most of the time, and such a riot when he forgets himself. I never

saw any one just like him. Matt's bright as a dollar, and one can have perfectly grand times with him; but there are days when I like his brother even more. Somehow Matt makes you want to protect him; he's so sensitive. And in that Tux the night of my—"

Nance started, blushing as red as ever the approaching Matthew had. He smiled and apologized: "Sorry, I scared you. Thought maybe you saw the truck bumping along the road down there. I caught a glimpse of an orange tam and made a guess that you'd be under it. Mother wants you for supper; and Dad has promised to fry chickens if you'll come."

Does the invitation include Cousin Combline?" asked Nancy as the young man dropped to the ground beside her.

"Of course. You can ride back with Luke when he gets the milk cans this afternoon."

"That's grand," smiled Nance. "How did your mother know that I was crazy to get out to the ranch today?"

"She didn't. It's a farewell banquet for yours truly. I'm swapping jobs with Mark to-morrow. Uncle Tom needs some one a while longer, and Mark is fit to tie at missing so much of your society. He called Mother up this morning with a pathetic story which she fell for instantly, and proceeded to point out the fact that it was my duty to relieve him. Jack's going to drive me to Prairie Ranch to-morrow, and come home with Mark. I hope to thunder I'll be back in another week."

"I hope so too," returned Nance sweetly; "but it's been wonderful for Jack, having this chance to stay with you people. I didn't dream your uncle would be laid up so long."

"Neither did Mark," laughed Matthew, "or I would have required even more persuasion to make him go! But it was Uncle Tom who fixed things so dad and Mother could marry when they did, and they'd lend him anything from their sons to their last copper. Say, Nancy, have—have you decided when you're going East?"

"I wrote Dad yesterday that I thought we ought to stay till June. There are such a lot of things we want to see, Matt; and goodness knows we'll never come again."

"Of course you will. What makes you say a thing like that? Why—why if I thought—"

He didn't finish the sentence; and Nance said demurely: "It's nice of you to want us to return! And we're going to miss you Adams a whole lot. That's straight, Matt. Yet I can't help wondering if when we once get home again this well—the whole experience, won't seem almost like a dream. If you know how I dreaded to come! I was scared out of my senses. You've no idea what an awful coward I am."

"Was, perhaps," Matthew corrected gravely.

Nance threw him a little smile; then her face sobered.

"I'm not so sure the past tense is correct, Matt. Sometimes I think my courage has never been tested, and wonder how I'd show up in a pinch. It was pride that made me

# AVOID AIR POCKETS

- ● DANGEROUS IN FLYING
- ● WASTEFUL IN BATTERIES

Brimming with energy, packed to the limit with power-producing materials, eager for a long life of active service—that's the Eveready Layerbilt.

Built layer upon layer, these flat extra-power cells make a distinct modern advance from old round cell types.

Note the waste air pockets and the numerous delicate wire connections in yesterday's models. Compare with today's compact trouble-free Layerbilt where every cubic inch is actively engaged.

If you want the utmost for your "B" battery dollar, only the Layerbilt will satisfy you.

Ayrshire Breeders' Association

Reports Received On Milking And Butter Fat Records

Reports have been received by the Canadian Ayrshire Breeders' Association on the milking and butter fat records of 147 cows and heifers, it was announced at Toronto.

Leaders included:

Three-year-old class—Inland Head Neil Fourth, owner, director experimental farms, Indian Head, Sask., 11,154 pounds milk, 557 pounds fat.

Two-year-old class—Fintry Iria, owned by Capt. J. D. Duwaters, Fintry, B.C., 12,594 pounds milk, 534 pounds fat, average test, 4.29 per cent fat.

## The Measure Of Success

In Ability To Keep On When Every One Turns Back

On every hand we see people who have turned back; people who had pluck enough to begin things, with enthusiasm, but did not have grit enough to carry them to a finish. The point at which you are tempted to turn back, the point when your grit lessens, you will meet your achievement power. Your ability to go on—is continuous after everybody else has turned back, is a good measure of your possible success.

Oil from a wild cucumber is believed to have been used by western Indians to paint which has withstood exposure for 150 years.

# LEADING PAINT MANUFACTURERS ANNOUNCE PRICE REDUCTION

## First Quality House Paint

**Now \$3.95**  
per gallon

(Whites Slightly Higher)

The Quality Remains Exactly The Same. Only The Price Is Changed.

Dating from to-day, the price of first quality house paints manufactured and sold by the underlined companies is reduced to \$3.95 per gallon.

There has been no change in market conditions or manufacturing costs to justify this step. We feel, however, there is urgent need for action that will make it possible for householders to obtain the highest quality paints at the lowest price consistent with strict maintenance of quality.

Thousands of people all over the country have been forced to put off much needed painting. Thousands more have been misled by "bargain" prices into using inferior paint of little or no value. We want to make it easier for you to enjoy the advantages of painting with first quality paint only, and are confident that the generous reduction in price now announced is the best way to accomplish this.

WE TAKE ORDERS FOR TEXT BOOKS ISSUED BY THE DEPT. OF EDUCATION; AND ALSO FOR ALL BOOKS ISSUED BY THE INSTITUTE OF APPLIED ART, EDMONTON.

### Regulation' Note Book. Exercise Books (Ink)

with Rings. Refills for same; and also Gummed Reinforcements.

### Chalk.

boxes of 1-gross. Sanigen, Excelsio, etc., low prices.

### Reeves's Paints

50c. a box. Refills for same. every color.

Reeves's Tempera Poster, Show card Colors.

### Prices range from 16c. for the best, to 38c.

### Scribblers (Pencil)

Prices from 2½ up.

### Waterman's Ink,

2-oz., pints & quarts. Also Peerless Ink, 2-oz. & pints.

### India Ink

Reeves's ½ oz. 19c.

### Pencils,

a large variety on hand.

### "FULL INFORMATION: AS WE GO ALONG!"

### PAINT PRICES ARE SHARPLY REDUCED.

An Act will be introduced at the next session of the Alberta Legislature dealing with social credit. Premier Aberhart is reported to have stated, before leaving for Ottawa.

The Act will be based on the information gleaned from the registration of those to whom the basic dividends will be paid and from the coming visit of Major Douglas.

"As soon as I get back from Ottawa," the Premier said, "he would devote a great deal of attention to the social credit angle and the public would be informed of progress." I still want the public to know that it will be from 15 to 18 months before I can put this into effect, and if I can't then I might know before that. But we will give the public full information as we go along."

### And Now for the Ducks!

The season for the shooting of ducks and geese in this district opens at noon on Monday next, Sept. 16. The price of a resident bird game license has been reduced to \$2. Residents of Saskatchewan, Manitoba or B.C. are permitted to hunt bird game in this province for a fee of \$2, provided they are holders of bird game licenses in their own provinces. The fee formerly was \$10.

There is no longer any special license required for bear in forest reserves, as it is absorbed in the general big game license.

On swans, cranes, pheasants, ptarmigan, blue grouse, ruffed grouse and spruce partridge entire closed seasons have been ordered.

### Dishonest Farmers Warned.

At a recent session of the Farm Review Board of the Farmers' Editors' Arrangement Act Mr Justice Ewing warned that the practice of some farmers giving chancery mortgages on their livestock or grain then disposing of it and retaining the money was a serious offense. The Justice said that such action was equivalent to theft, and the person doing so could be taken to court to account for his action. The Board was reviewing the case of a Beaumont district farmer who owned \$3600 on a quarter section of land and equipment worth approximately \$5450.

### Income Tax for Outsiders.

Possibly some localities will be interested in some of the major revenue producing schemes which the City Solons in Edmonton are said to be planning, to lighten the load on real estate there.

Among the proposals which are said to have been under discussion is an "Outsiders" Income Tax for those holding jobs within the City but escaping municipal taxes by living outside.

Another one of the proposals which has been under discussion is a parking tax of \$5 or \$10 a year for City motorists.

Another suggested one was a rental tax.

### C. N. Train Service.

The train No. 190 leaves Jasper for Edmonton Monday, Thurs., Sat.

Train No. 189 leaves Edmonton 9:30 P.M. Tues., Thurs., Sat., and arrives Stony Plain 10:37 P.M.

### ACREAGE FOR RENT.

20 ACRES, MORE OR LESS.  
Next Town of Stony Plain.

APPLY

Jas. Malloch,  
PHONE 34.

A sharp reduction in the price of first quality house paint to \$3.95 per gallon is announced by the manufacturers of some of Canada's best-known brands of paint. The reduction to take effect immediately.

In making the announcement, the companies concerned state that the reduction is not justified by any change in market conditions or manufacturing costs. They point out, however, that during the past few years householders have been misled by "bargain" prices into using inferior paint with results which reacted unfavorably on the whole industry. Distrustful action was felt to be necessary to check a situation which seriously threatened property values all over the country.

The new low price is designed to make it easier for property owners to use first quality paint only, with resulting benefit to the property and to the community in general.

The companies announcing the reduction are Canada Paint, International Varnish, Martin-Senour, and Sherwin-Williams.

### On the Side.

As a remedy for the overproduction of school teachers in Ontario, the authorities there are thinking of enforcing the rule that entrants for the Normal schools there must first pass an exam as to their physical fitness.

—Radio-set owners at Grande Prairie have organized, with the object of suppressing interference with radio reception in that town by electrical appliances. A committee did a little investigating, and rounded up quite an array of noise-makers.

—A California judge recently sentenced a defendant to prison and married his wife. And, remarks a contemporary no one but the prisoner knows which of the two has drawn the more severe penalty.

—A tourist wearing a down-East label on his car was driving up to Jasper the other week, wandered off the highway and consequently got lost among the Gario Hills. After paddling around for a time his anxious wife asked him if he really didn't really know where he was. "No," the motorist admitted, "I'm as lost as the average man is when he starts on the third verse of the National Anthem."

—They're still pushing thread into needles down in New Hampshire. An old housewife has reported she has set up some kind of a record by placing 225 strands of size 40 thread thru the eye of a single needle.

—Many a golfer has been credited with a perfect lie, but we can't say that much for the fisherman.

—Sparkie rises to remark that some people have no respect for age—unless it is bottled.
